Type-C

Micro

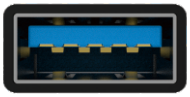

On-The-Go (OTG)

Audiophile
USB OTG Cable

## *Audiophile OTG*

The iFi **On-The-Go (OTG)** cable comes in USB-C and USB-micro versions. It is ideal for Android phones to extract the digital signal to feed a DAC. The iFi OTG cable is constructed from pure OFHC continuous cast copper. The USB-C is USB3.0 standard and the USB-micro is USB2.0 standard.

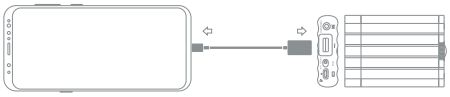

Note: Please ensure that your Android phone is capable of USB host mode so that the OTG cable can extract the digital signal.

USB-A Female

Pure OFHC continuous cast copper cable
